# Spiral Freezer:

Spiral Freezer are a wide range of devices for freezing products. Each spiral tunnel is designed according to the customer's individual order, prepared for specific requirements and working conditions. Spiral tunnels are the equipment of production plants in the following industries: bakery, meat, delicatessen, ice cream production and many others. In designing the equipment, emphasis has been place on flexibility such that each machine can be specified to comply exactly with customer requirements.

## Spiral Technical Specifications:

- Belt Width Up to: 1000mm
- Product Height Up to: As per Client.
- Belt Type: POM, Posi Drive, Friction Drive.
- Defrosting: Sequential Defrost (Optional).
- CIP System (Optional).
- IRS System (Optional).

## Spiral Benefits:

- Posi Drive Belt with Less Slippage.
- Roller Chain with Helical Bevel Gear Drive.
- Slope Floor for Ensuring Hygienic Design.
- PLC Controls with Menu Manager.
- Less Space than Standard Tunnels.
- Flexible Out Let and In Let Design.
- Maximum Utilization of the Spiral Belt.
- Capable of Handling of Heavy Products.
- Horizontal airflow for quick cooling and reduce product dehydration.
